

Fruit cage additional bracing

Fitting wire bracing

1. Undo a hose clip and place it around the bottom of a corner post.
Fig 1
2. Using the short piece of wire loop it through the hose clip and connect the other end to the turnbuckle. Fig 2:
3. Connect the long wire to the top T intersection of two posts Fig 3:
4. Connect the other end to the turnbuckle Fig 2:
5. Lightly tighten the turnbuckle until the wire straightens out. Do not try to get the wire tight.
